Agenda

Overall Project Presentation
Time Line
Category 7 changes
Overall Project

- The Trade Finance Maintenance Working Group (TFMWG) launched a significant overhaul of the cat 7 MTs (Letters of credit, guarantees and standby L/Cs) in 2013, taking into account change requests from previous years.
- The drivers are:
  - requests from the community over the last 10 years
  - straight-through-processing
  - to fill some gaps in transaction flows
- It is a significant upgrade to the functionality and format of the 700 (L/C) series and 760 (guarantees/standby L/Cs) series of messages, including 9 new MTs
- The go-live dates are in November 2018 for L/Cs and November 2019 for guarantees/standby L/Cs.
- The detailed implementation and documentation timeline is as follows:
Standards MT Release 2018 and 2019: prepare for major changes related to Category 7 messages

We would like to inform you that a mandatory maintenance will be performed on MT Category 7 messages in November 2018 and November 2019, as part of the continuous improvement of our standards.

To ensure you can plan sufficiently in advance for these releases and to provide you with all the information you need, SWIFT Standards has organised webinar sessions that have been recorded. More information can be found here.

The advance documentation for the Category 7 messages of SR 2019 (guarantees/standby LCs) can be found on the MT Release 2018 timeline here.

In addition to the above changes, we have also published the new MT 798 Trade Guidelines for corporate-to-bank communication V5.1 (9 March 2018).
Testing Facilities

As usual, the Vendor Test Bed (VTB) will be available in May of the SR (Standards Release).

And Test and Training (T&T), in July of the SR.

An additional testing facility, integrated as a Readiness Portal in MyStandards is available since 2016. The new MT’s can be tested, with some limitations:

- not all NVR (Network Validated Rules) implemented
- not for volume testing
Training and Webinars

Worldwide webinars on SR 2019 in 2018

SwiftSmart will have specific modules and training on category 7, SR 2018 (as of January 2018) and SR 2019.
Summary – Evolution in Category 7

Limited functionality
- Large portions of free text
- Limited character set
- Few coded fields

Major revamp
- New fields added
- Z-character set in long text fields
- Codes introduced
- More validation

Staggered Release
- Published advance documentation
- SR 2018
  - MT 700-759
  - 3 new messages
- SR 2019
  - MT 760-787
  - 6 new messages
MT Category 7 Working Group

General – L/C and Guarantees/Standbys

• Creation of a message MT 759 (Ancillary Trade Structured Message) similar to MT 799 but using a number of coded and structured fields

• Adoption of extended “Z” character set for long fields (e.g. 45A, 46A, 47A, 71, 72, 73, 77)
Changes for SR 2018 – Documentary Credits (Letters of Credit)

- MT 707 (amendment message) is significantly enhanced to be more in line with the MT 700, MT 710, and MT 720, with structured fields for amendment details instead of the few free-format fields that were used in the past.

- 3 new messages:
  - MT 708 – Continuation message for the MT 707
  - MT 744 – to notify receiver that a reimbursement claim appears to be not in accordance with the reimbursement authorisation
  - MT 759 – Ancillary, structured message to be used only if there is no other appropriate category 7 message
Documentary Credits

Overview of work items and topics - Fields

- **In MT 707 + new continuation MT 708**
  - Structured fields for any modification
  - Use of codes ADD, DELETE, REPLACE ALL for the long narrative fields
  - Specific tag for amendment charges

- **In 700/710/720 and continuation:**
  - Addition of 2 fields to indicate the Special Instructions for Payment (to be conveyed to the Beneficiary or for the Advising Bank only)
  - Addition of the Bank that is requested to add confirmation or may add its confirmation
  - Removal of 39B “Maximum Credit Amount”
Documentary Credits

Overview of work items and topics - 2

• Addition of additional narrative field 79Z to MT 730 and MT 752
  Field changes applicable to 700, 710, 720, etc
  • Renamed field 42P *(Deferred Payment Details to Negotiation/Deferred Payment Details)*
  • Deletion of some codes from 40A (Form of Documentary Credit)
  • Change field 43P (Partial Shipment) and 43T (Transshipment) to code
    – ALLOWED
    – CONDITIONAL
    – NOT ALLOWED
  • Renamed and structured field 48 *(Period for Presentation to Period for Presentation in days)*
    – 3n/35x] - (Days)(Narrative)
  • Changed field 49 *(Confirmation Instructions) definition*
  • Changed usage rules for fields 45, 46 and 47 to support more extension, from 3 to 7 extension messages, for MT 701, MT 711 and MT 721
Thank you

MT 798 Trade Guidelines

- The category 7 MTs are bank-to-bank messages.
- In the corporate-to-bank space, MT 798 guidelines have been developed. The MT 798 is used as an envelope message, with specific fields, or entire bank-to-bank MTs included in field 77E.
- The MT 798 Guideline specification (currently implemented is V4) will be upgraded to take into account the category 7 changes. It also includes various enhancements.
- These changes will “go live” at the same time than the corresponding MTs.
- MT 798 MIG V5 was published in July 2017.
Major Work Items for MT 798 V5

- Alignment of MT 798 guidelines to updated interbank MT SR 2018-2019
- New and consistent references in all flows (21A and P, 21S and T)
- Index message is now the same for guarantees and standby LC (was different in V4)
- New flows
- Drafting process

MT 759 Ancillary Trade Structured Message

MT 759 Scope

This message is sent to request or to provide information, such as a fraud alert or a financing request, concerning an existing trade transaction such as a documentary credit, demand guarantee, standby letter of credit or an undertaking (for example, a guarantee, surety, etc.).

This message must not be used where an existing MT message is available, and it should be used rather than the MT 799.

M = Mandatory, O = Optional
Field 23H: Function

CODES

Function must contain one of the following codes:

- CLSVOPEN: Opening of client service call by Trade Operations
- CLSVCLOS: Closing of client service call by Trade Operations
- FRAUDMSG: Advice of a fraud attempt
- GENINFAD: General information advice
- ISSAMEND: Amendment of a free-form undertaking such as a dependent guarantee
- ISSUANCE: Issue of a free-form undertaking such as a dependent guarantee
- OTHERFNC: Other request
- REIMBURSE: Request related to a reimbursement
- REQAMEND: Request to amend an undertaking
- REQFINAN: Financing request
- REQISSUE: Request to issue an undertaking
- TRANSFER: Transfer of a undertaking

USAGE RULES

The function may not be used if there is a specific MT (for example, MT 700, 707, 760, 767) that covers the same function.
Well structured C2B and B2C messages (SCORE MT 798)
- using the Bank-to-Bank MTs as the ‘backbone’ of the messages
- additional fields for communication Customer-to-Bank and vice versa

Well structured B2B messages (MT 700, MT 710, MT 707, etc.)
- however, some messages are not structured enough (e.g. Amendment)
Guarantees and Standby Letters of Credit

**Current situation**

- **Applicant**
- **Issuing Bank**
- **Advising Bank**
- **Beneficiary**

- well structured Customer-to-Bank messages (SCORE MT 798)
- unstructured Bank-to-Bank messages (MT 760, MT 767, etc.)
- less structured Bank-to-Customer messages (SCORE MT 798)
Guarantees and Standby Letters of Credit

Overview of work items and topics

• ISSUANCE: Enforcement of use of MT 760 (and MT 767) for Demand Guarantees / Standby Letters of Credit
• Significant re-design of MT 760 + new continuation message (MT 761)
• AMENDMENT: Significant re-design of MT 767 + new continuation message (MT 775)
• NEW MT: Guarantee/SBLC Demand (incorporating Extend or Pay) (MT 765)
• NEW MT: Guarantee/SBLC Non-Extension Notification (MT 785)
• NEW MT: Guarantee/SBLC Demand Refusal (MT 786)
• NEW MT: Guarantee/SBLC Amendment Response (MT 787)
